### **PRAYER FOR OUR PEOPLE:**

- For Lloyd Weiss as he continues to recover in the hospital after having had his right leg amputated. Things are very difficult right now – Lloyd has internal bleeding; the blood being brought in is not bringing his hemoglobin up; he will be having interventional radiology because his aorta is blocked; he has pneumonia, and his blood pressure is tanking;
- Brenda Synesael is on pain medication for her ankle and that is helping. She is to continue with this medication until she sees her orthopedic surgeon on June 17, 2026.
